

BEST POLICIES FOR SUSTAINABLE WOOD FUEL

WHICH POLICIES ARE NEEDED AND HOW MUST THEY BE DESIGNED TO MAKE WOOD FUEL A SUSTAINABLE ENERGY SOURCE?

governance

**national and local level
institutional frameworks
stakeholder involvement
law enforcement**

planting, harvesting, processing, use

**forest policy
agricultural laws
and subsidies
agroforestry
land tenure
efficiency
certification**

Photo: Nathalie Bertrams

gender dimension

**resources: land, income, finance
empowerment
ownership
access to knowledge
power for action
participation decision making
managerial and entrepreneurial skills**

OUTREACH

- Challenge this approach: what is missing, what is wrongly put?
- Ideas on what such a policy should look like, ideas for best policies?
- Network: Who should I talk to? Who works in this area? Who does research?
- Best practice input for best policies?
