African Renewable Energy Alliance

Who is AREA?

The African Renewable Energy Alliance is a platform for policy makers, business, civil society and academia to exchange information and consult about policies, technologies and financial mechanisms for the accelerated uptake of renewable energies in Africa.

Founded in Ethiopia in 2009 by the World Future Council, this member-driven network comprises of over 400 members from 60 countries.

What does AREA do?

AREA members share information, knowledge and experience via an online platform and monthly phone discussions, meet for international AREA conferences and workshops and present their positions at relevant conventions and forums.

Join AREA!

It needs a powerful alliance to boost the deployment of renewable energies in Africa in order to achieve sustainable development on the continent. Join us!

Get involved. Membership is for free, donations are welcome. Register now at our networking platform www.area-network.ning.com For more information, visit our homepage www.area-net.org
